

LINOLEUMS

Ask Your Wife

about the care of the kitchen. Which bothers her most, "doing the dishes" or "scrubbing the floor"? And then consider a bright, cheerful, "crackless" floor that is even easier to clean than washing the dishes.

Linoleum

will make a bright, inviting room out of a dull, cheerless kitchen—and will reduce the unpleasant work of scrubbing by half. Ordinarily you just use a mop on linoleum, you know.

Send your wife in to-day to pick out the pattern; she'll like our assortment

Hooker & Co.'s Linoleum wears well and its cost is low. It makes the kind of kitchen your wife should have.

Have your suit, gown and dress made new for the spring and summer by my French dry cleaning process. It's time to look 'em up. What's the use of discarding them, when my French dry cleaning will make them as good as when you first bought them? It means money in your pocket and neatness in your dress. Don't you think that combination pays? Send your gloves to me and let my keep them in perfect condition until worn out, at a small price. H. A. Landy, merchant tailor, dry cleaning and pressing, 7 Pearl street. Tel. 635.

So far as active candidacies are concerned, it is not until 1918 season that we can expect to have a nomination for the aldermanic office will be named at the caucus next week. To-day it was reported that Jesse C. Phelps of Webster street might consent to stand for the nomination. Mr. Phelps is a derelictman by trade. He has been a ward 1 resident for some years. Judge H. W. Scott's name has been mentioned, but he has made no direct statement as yet. George Robbins of Robin Bros., granite manufacturers, was favored by many residents of the ward until a few days ago when he declared that he would not accept the nomination under any circumstances.

A "leak" has been discovered in Barre and neither Thomas W. Lawson nor any of his associates was instrumental in finding it. Members of the Barre fire department at the central station, who inspected the fire whistle after it was found to be cranky in making the calls from the alarm boxes, found that after standing in the weather for 25 years, the old metal gong was beginning to be the worse for wear. The main difficulty was found to be a leak in the steam pipe around the whistle, the steam working its way through, thus causing the noise to choke up and make it almost impossible to get a clear and distinct toll in the numbers. The firemen are at the gong every day, as the whistle is blown at 9:30 o'clock, and it is expected that it can be properly mended and adjusted within a few days so that the call will be as clear as it has been during the past year or two.

Three Socialist locals in Barre, composed of English, Italian and Finnish speaking people, gathered in the Granite street auditorium last evening for a joint meeting to consider further plans for the coming city elections. Names for aldermanic and other offices were informally discussed, but no action was taken, as it was decided to adjourn the meeting until Friday evening. There are candidates available for all of the ward offices and the Socialists propose to adhere to their original program by placing nominees in the field. Nevertheless, the party is in something of a quandary over the mayoralty question, as Fred W. Sultor, its logical candidate for the office, is understood to be averse to accepting the nomination if he is to be opposed by another representative of the laboring men. Mr. Sultor was representing organized labor at a committee hearing in the capital last evening. Socialists have not abandoned the hope that labor men may endorse Mr. Sultor's candidacy.

Touche Each Printzess and Wooltex Garment

Those who buy a Printzess or Wooltex coat or suit buy more than the fine fabrics and skilful workmanship which help to make the garment beautiful. They buy that thing which well dressed women demand—style, correctness. Each Printzess and Wooltex coat or suit, whether simple or elaborate, accurately reflects the design-lines that are created by the great Parisian couturiers. These new coats and suits that demonstrate the approved modes of spring and summer may be seen in our garment department. You will see them worn by those well-bred American women who insist that every detail of their costume shall be marked by distinction.

Witt met Tris Speaker and the two talked over the American league situation."

Repairs to the horse-drawn chemical truck, which was damaged slightly while the department was answering a general alarm Tuesday noon, were gotten under way to-day. When the truck collided with a pole near the federal building, only the front running board, to which the gong is attached, and the whiffletrees were damaged. The truck will remain in commission while the damaged parts are being restored. It develops that the depression in the highway where the street railroad tracks are located was partly responsible for the accident, as the jolting which came when the truck sank into the bed of the tracks caused the reins to slip from the driver's hands.

Train service on the Central Vermont railroad was nearly normal last night and to-day, although a delay of two hours in the arrival of the train due to reach Barre at 7 o'clock was occasioned by trouble to the southward, instead of by snow accumulations on the northern division. Passengers aboard the north-bound train had to wait more than an hour and one-half at South Royalton while repairs were being made to broken connecting rods in the locomotive. The Barre connection was made at 9 o'clock. Trains from Montreal, which have been greatly affected by drifts this week, have overcome most of the obstacles that affected traffic to the north for three days, and unless there is another heavy windstorm the road officials believe that the delays will not be repeated.
